Co-Active Leadership Presence

Discover the power of your natural Leadership Style

What is Co-Active Leadership Presence?

Co-Active Leadership Presence is an interactive workshop that takes you through an innovative process to identify, celebrate, and build on your unique leadership qualities. This powerful system lets you see and understand the leadership impact you have on other people and teaches you how to maximize your effectiveness in any situation. *Co-Active Leadership Presence* opens your leadership style possibilities using a creative process that helps you to embody your natural strengths so that you can put them into practice immediately. With this deep self-awareness you will be able to step into any situation and create a response that will help deliver the results you want. This system was developed by Henry Kimsey-House, the Co-Founder of the internationally acclaimed Coaches Training Institute (CTI, www.thecoaches.com).
